AUSTRALIAN MADE BUILT ON SERVICE

# Quality grain-based horse feed supplements for all your equine needs

**AMBOS Stockfeeds** have developed a range of quality grain-based feeds which have been formulated to balance the diet of a horse fed pasture and hay.

## FEEDING DIRECTIONS

### Supercool horse pellets or Supercool horse mix

Feed an appropriate level of pellets or grain mix with 1% of body weight (BW) in hay per day, and the balance in pasture. Higher rates of pellet feeding may be required to meet the digestible energy demands of a horse in heavy work.

Vary the amount of pellets with the class of horse fed, seasonal availability and quality of pasture, quality of hay and level of stress or work.

### Electro Barley

As rule of thumb, feed 2kg Per day, 1% of BW in hay per day, and the balance in pasture. Access to plentiful clean and cool water is advisable.

### Supplementing pasture and hay

Minerals, protein and digestible energy composition of pasture varies with seasonal pasture growth and availability. Pasture alone does not provide an adequate DM intake to meet the demands of mid to late pregnancy and growth in autumn and winter, making supplementary feeding necessary.

## ELECTRO BARLEY

A 13% protein barley-based ration with molasses and electrolytes presented in a crumbled form which is suitable to feed to horses and ponies in moderate work to supplement the available pasture.

### Electrolytes contain

Vitamins A, B2, D3, K3, E, B6, B1, Niacin, Calcium Pantothenate, B12, C, Sodium Chloride, Sodium Citrate, Potassium Chloride, Sodium Bicarbonate, Dextrose and Flavour.

## SUPERCOOL HORSE PELLETS

A 12% protein safe grain-based ration which is suitable to meet the requirements of horses and ponies in moderate work to supplement the available pasture.

### Ingredients

Lucerne Meal, Barley, Millrun, Molasses, Vegetable Oil preserved with BHT, Vitamin A Supplement, Vitamin B12 Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Riboflavin, Betaine Monohydrate, Niacin, d-Calcium Pantothenate, Thiamine Mononitrate, Pyridoxine Hydrochloride, Biotin, Folic Acid, Methionine, Choline Chloride, Lime, Salt, Manganese Sulfate, Manganous Oxide, Ferrous Sulfate, Potassium Iodate, Copper Sulfate, Zinc Sulfate, Zinc Oxide and Sodium Selenite.

## SUPERCOOL HORSE MIX

A 12% protein safe grain-based ration which is suitable to meet the requirements of horses and ponies in moderate work to supplement the available pasture (with nutri-pellet).

### Ingredients

Lucerne Meal, Steam Rolled Barley, Steam Rolled Oats, Black Sunflower Seeds, Tick Beans, Cracked Corn, Molasses, Vegetable Oil preserved with BHT, Vitamin A Supplement, Vitamin B12 Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Betaine Monohydrate, Riboflavin Supplement, Niacin Supplement, d-Calcium Pantothenate, Thiamine Mononitrate, Pyridoxine Hydrochloride, Biotin, Folic Acid, Methionine, Choline Chloride, Lime, Salt, Manganese Sulfate, Manganous Oxide, Ferrous Sulfate, Potassium Iodate, Copper Sulfate, Zinc Sulfate, Zinc Oxide and Sodium Selenite.

## SUPERBLOOD HORSE PELLETS

An 18% Protein pellet which has been formulated to balance low protein pasture and forages in classes of horses that are growing or have a high demand for protein. This ration is ideally suited for late pregnant or lactating broodmares, weanlings and yearlings. It is a high energy, high protein pellet using Soyabean Meal, Canola Meal, and Lucerne Meal. Superblood delivers the levels of vitamins, macro and trace minerals to meet the requirements of rapid growth and reproductive efficiency.
